A/30: BYE Material

MEMORANDUM FOR: CIA Member,
Investigative Standards Working Group
DCI Security Committee

FROM:

[REDACTED]
CIA Member,
DCI Security Committee

SUBJECT: Upgrading DCID 1/14
Reinvestigation Requirements

1. I have received a proposal from [REDACTED] to see to the upgrading of the DCID 1/14 minimum requirements for reinvestigations. I proposed at the 11 April meeting of the Security Committee that the tasking of your Working Group be expanded to look into this matter as part of the overall assessment of the SCI investigations.

2. I would appreciate it if you would contact [REDACTED] and get all necessary details to enable you to make a strong case for such upgrading. I am aware that there will be an initial period of analysis of data about current investigation procedures and that this data could have inferential application to reinvestigations. I would like you to make a specific point at meetings to incorporate discussions about reinvestigations and try to locate all advantages the data will support toward a recommendation to upgrade the minimum requirements for DCID 1/14 reinvestigations.
